Alexei,

We propose producing documents in multi-page TIFF format. For documents collected in electronic form, we'll produce extracted text. For documents collected in printed form, we'll produce the OCR. We'll produce excel spreadsheets, videos, and audio in native format.

For emails, we'll provide the following metadata: date sent, date received, sender, recipients, CC, BCC, title/subject, custodian, message ID, attachment beginning/end bates number.

For other documents collected in electronic form, we'll provide the following metadata: date created, date saved, last printed date, author, application name/extension, document title, file path and custodian (to the extent such information is automatically preserved in normal usage and extractable).

Andrew:

I am still awaiting your response regarding the status of the electronic production/review and the available formats for the production.

I will be with limited connectivity from tomorrow through the following Friday Jan 24, but please coordinate with Eric's office in the meantime so that we can have Equivalent Data ready to accept your production and process the documents.

I will be in touch regarding the Interrogatory Responses soon after my return on the 24th and regarding available dates for the 30b6 depositions that we discussed.

Thank you,

Alexei
